Dear Professor Kalvoda:

25X1A9a I have been asked to answer your letter of 22 May addressed to  While we appreciate your contacting this Agency in regard to your projects, we are unable to supply the information you request to private individuals.

As you have probably noted in recent press reports, however, Czechoslovakia is indeed one of the major centers of world-wide Communist subversion, as shown by the fact that it is the seat of the authoritative international Communist journal PROBLEMS OF PEACE AND SOCIALISM (WORLD MARXIST REVIEW) and of leading international Communist fronts, such as the WORLD FEDERATION OF TRADE UNIONS and the INTERNATIONAL UNION OF STUDENTS.

The press has also noted that Communist activities in Latin America are conflictingly influenced by Moscow, Peking, and Havana, ranging from the ostensibly parliamentary tactics of the Chilean CP to the terrorism of the Venezuelan party -- even though these differences, as noted in a recent OAS report, tend to stimulate rather than to hamper Communist subversion in the Western Hemisphere.

Thank you once again for your interest in contacting us.

Sincerely,

O/DCI/JAM:bak(7 June 65)
